EXPLANATORY NOTE¹

Subject: List of NAA Focal Points for Organisation Approvals

To support the industry with issues concerning organisation approvals more efficiently, the Agency proposed to the Advisory Group of National Authorities (AGNA) to come to a solution to address industry request for a transparent and common place to find information on organisations approved in the respective Member State. AGNA expressed support to this initiative and nominated NAA focal points that can be contacted by interested parties. Please note that the Agency publishes on its web-site the lists of the approvals it issues (Design Organisation Approvals (DOA), alternative to DOA; Production Organisations Approvals; Part 145 approvals, Part-147 approvals)

So far, the Agency received 19 nominations. Most of the NAAs chose to provide detail contact information of a focal point, while a few opted for a simple reference to their website.

The list of NAA focal points for organisation approvals is published on the EASA website for public use.

Access to the table can be made by clicking on the following link below:

http://www.easa.europa.eu/ws_prod/r/r_cb_agna.php

If the link fails to open correctly, try cutting and pasting it into your internet browser.

¹ **Disclaimer:** The information that could be obtained from the focal points or from EASA website is given in good faith and does not exempt of checking with the actual company the exact status of their approval.
